**Company Name: Mavix Ltd** **Date of Report: Oct 30, 2005**

**General Info**

<p><b>Sector:</b>  <b>Brief Profile:</b></p> <p><b>Company Status:</b>  <b>Number of Employees:</b>  <b>Headquarter Location:</b>  <b>Year Established:</b></p>	<p><b>Homeland Security</b>          Mavix developed surveillance solutions based on all digital, IP based multimedia streaming over digital communications networks. The markets the company addresses with its products are those requiring an integrated solution for surveillance and security applications, based on a multipurpose low cost platform capable of delivering video, audio and diverse types of data, and a distributed management application including digital streaming recording and automatic response to event capabilities. Mavix surveillance systems are based on dual PowerPC processor design so that one processor encodes and streams data while a second processor is free to run sophisticated programs and integrate with external data sources.</p> <p>Revenue Growth          10 in Israel, 2 in Europe and 4 in the US          Yoqneam Illit          1995</p>
